

Missouri Student Unions Advisory Committee Annual Report for 2007-2008

The Missouri Student Unions Advisory Committee met monthly from October through April.

The meetings were well attended by the faculty, staff and ex officio members. Student members attended well in the Fall semester but not so well in the Spring semester. There was one faculty member and one staff member who did not attend any meetings. Messages were regularly sent to committee members regarding meeting times, agenda topics and minutes of the meetings via the listserv on the Standing Committee page.

It was an exciting year to be a part of this committee because of the building and renovation taking place. We received regular updates about the new Student Center and the changes being made to the current Brady Commons. We received regular updates about changes in Memorial Union. We had special presentations by Julaine Kiehn at Plaza 900 about Campus Dining Services and Robin Whiteley at the University Club on Catering.

Our input was sought at each meeting and Jeff Zeilenga and Jeff Roberts answered many questions from members. We discussed several important issues, including the flying of flags, the outside patio area at Memorial Union, the murals and use of other artwork in Memorial Union, interim office space for persons who will be moved during the construction and renovation of Brady Commons/New Student Center, the proposed fireplace in Memorial Union, and other topics that were timely and appropriate.

Respectfully submitted:

June DeWeese, Chair 2007-2008
